

Jeff Inch

1336 Sandhill Drive
Ancaster, Ontario
L9G 4V5

EDUCATION

Bachelor of Arts with Concentration in Criminology and Criminal Justice (1999)
Carleton University, Ottawa, Ontario

CERTIFICATION

- Certified under the Transport Canada Canadian Aviation Regulations (CARS) to fly advanced RPAS's for commercial areas, including urban built up locations across Canada in class C, D, E, F, G airspace (as of June 1)
- Level 3 Collision Investigator
- Level 4 Reconstructionist
- Pix 4D Aerial Mapper Licenced – Collision Reconstruction
- Drone Deploy Aerial Software

TECHNICAL AFFILIATIONS

- Canadian Association of Technical Accident Investigators & Reconstructionists (CATAIR) – Member
- National Chiefs of Police RPV Working Group – Member
- CERRA (Canadian Emergency Responders Robotics Association) – Founding Member

PROFESSIONAL EXPERIENCE

Jeff is a Remotely Piloted Aerial Systems Operator specializing in pre-loss and post-loss site inspections, field investigations and aerial scene mapping using Pix4D and Drone Deploy software. He is also a Level 3 Traffic Collision Investigator and a Level 4 Collision Reconstructionist with over 22 years of policing experience, including five years as a Forensic Identification Officer and 9 years in traffic services. Jeff is qualified to image, analyze and interpret vehicle air bag control modules. He has served in a supervisory role for a major municipal police agency overseeing traffic services including collision reconstruction as well as managing his services drone program.

March 2020 to present

*Remotely Piloted Aerial Systems Operator and Collision Reconstructionist, **Origin & Cause Inc.***

- Commercial expertise with operational Remotely Piloted Aerial Systems for site inspections, pre-loss and post-loss
- Operate advanced RPAS to support field investigations in the areas of:
 - Roof Inspections (drone deploy roof reports)
 - Building /structural inspections (interior and exterior)
 - Fire scene investigations (residential, commercial, or large scale)
 - Natural disaster requiring area mapping for floods, wind damage, forest fire, ice storm (2D/3D)
 - Explosion scene investigation
 - Site mapping for two dimensional and 3-dimensional modelling
- RPAS fleet will include a thermal sensor RPAS and an all-weather, heavy inspection RPAS for industrial and large-scale site Inspections
- Capture high definition video and digital imaging at 4K resolution for pre-loss and post-loss reports by adjustors on site
- Insured for \$2 million liability for commercial deployment of the RPAS
- Extensive background in emergency services including site evaluations for safety, traffic safety, and motor vehicle collision investigation
- Motor Vehicle Collision Analysis Review reports

Jan 2021 to Present

*Traffic Management and Road Safety Sergeant, **Niagara Regional Police Service***

- Conducting research, prepare and submit reports including recommendations, in relation to traffic problems identified by members of the public, Municipal authorities, and the Regional and Municipal Traffic Engineering Departments, for the ongoing assessment of Region-wide traffic enforcement programs for effectiveness
- Supervision and delivery of impaired driving countermeasures program.
- Oversee the ongoing maintenance, inspection and calibration of equipment
- Delivering and facilitating the training necessary to establish and maintain skills required for an effective Breath Analysis and Drug Recognition Expert program
- The maintenance of records related to Breath Analysis and the Drug Recognition Expert program, including required disclosure as necessary
- The Speed Management Programs and required supervision to ensure that mandated testing, calibration, and training requirements are met in a timely fashion
- Administrative support through the completion of RIDE Grants submissions and associated reports as necessary
- Participation on local and provincial road safety committees
- Identification of traffic safety risks and sharing information in order to promote intelligence led traffic enforcement initiatives
- Ongoing assessments of road safety initiatives and statistical evaluation
- Operational plan preparation for road safety initiatives (i.e.: Back to School Road Safety Day, Festive RIDE Kick-off, etc.)
- Liaison with District Supervisors/Commanders in order to encourage and deliver consistent traffic enforcement activities across the Region
- Assisting with the coordination of the police response to large scale events that may exceed the capacity of any one District to address
- Supervising officers assigned to the Traffic Enforcement Unit to ensure customized frontline policing services are provided throughout the Region
- Development and implementation of operational plans for enforcement initiatives to address problem oriented policing concerns at various locations throughout the region
- Coordinating information on initiatives between the various districts and members of the Traffic Enforcement Unit
- Assisting Reconstructionist or district officers as required at major incidents including collisions

September 2020 to December 2020

*Uniform Patrol Supervisor – City of Port Colborne, **Niagara Regional Police Service***

- Supervise the activities of officers in relation to assigned investigations
- Supervise and coordinate the work of officers
- Effectively monitor and manage annual leave, requests for time off and duty schedules
- Oversee daily operations and administration, delegate assignments, implement staff schedules, and complete employee evaluations
- Review and approve criminal crown briefs including arrest warrant requests; ensuring content and quality of all briefs and Bail Hearing packages

2014 to Present

*RPV (Remotely Piloted Vehicle) Unit, **Niagara Regional Police Service***

- Operational Manager responsible for all aspects of the flight operation

- Operational Manager responsible for all administrative functions
- Overseeing all safety of operations
- Maintaining application of future SFOCs to Transport Canada
- Ensuring compliance of Program pilots with the SFOC
- Ensuring that all required persons are present during operations
- Ensuring that all persons involved with the operation understand their assigned duties
- Ensuring all Flight Release/Authorization forms are approved prior to RPAS operations
- Procurement of equipment and training
- Collection and maintenance of all flight logs and records
- Transport Canada Qualified Flight Reviewer
- Active member of the National Chiefs of Police RPV working group and founding member of the CERRA (Canadian Emergency Responders Robotics Association)

PREVIOUS PROFESSIONAL EXPERIENCE

May 2020 to September 2020

*Uniform Patrol Supervisor – Casino Patrol (Niagara Falls), **Niagara Regional Police Service***

- Supervise the activities of officers in relation to assigned investigations
- Supervise and coordinate the work of officers
- Effectively monitor and manage annual leave, requests for time off and duty schedules
- Oversee daily operations and administration, delegate assignments, implement staff schedules, and complete employee evaluations
- Review and approve criminal crown briefs including arrest warrant requests; ensuring content and quality of all briefs and Bail Hearing packages

September 2016 to April 2020

*Collision Reconstruction Unit, **Niagara Regional Police Service***

- To date I have investigated 159 fatal and life-threatening collisions, to which I have been the Officer-in-Charge in 89)
- Investigation of life-threatening and fatal injury collisions
- Investigation of fail to remain collisions resulting in serious injuries or greater
- Investigation of departmental collisions resulting in serious injuries or greater
- Investigation of industrial accidents involving vehicle collisions resulting in life-threatening or fatal injuries
- Parallel/joint investigations with the Ontario Special Investigation Unit, Ministry of Labour, Ministry of Transportation, Ontario Fire Marshalls
- Forensic mapping and preparation of scaled diagrams for major crime scenes
- Location, identification and interpretation of collision scene evidence
- Inspection, identification and interpretation of vehicle damage profiles
- Imaging, analysis, and interpretation of vehicle event control units
- Crime scene and vehicle damage profiling photography
- Interviewing and interrogation of witnesses and involved parties
- Preparation of Criminal Code and Provincial Offence Act search warrants and crown briefs
- Preparation of independent collision reconstruction reports for civil proceedings

- Preparation and presentation of in-service training lectures
- Level II On-Scene Collision Investigation Course Instructor and Practical testing
- Niagara Regional Police Service – Emergency Services Officer of the Year 2019

September 2012 to September 2016

*Forensic Services Unit, **Niagara Regional Police Service***

- Examination/photography of crime scenes, body site searches, or those scenes where the Forensic Services Unit assistance is required (e.g. Accidental death where an inquest is likely)
- Investigated major case model incidents leading to successful prosecutions
- Examination of articles for fingerprints and/or physical evidence
- Collection and evaluation of physical evidence (or assisting in its collection) and submission of such to the Centre of Forensic Sciences
- Forensic Fire Investigations
- Photography of victims, property, and accused person relevant to an investigation
- Comparison of fingerprint/footwear impressions, physical matches and identification of this evidence if possible
- Preparation and presentation of forensic evidence for Court (i.e. photos, charts, scale drawings etc.)
- Responsible for the training Enhanced Scenes of Crime officers
- Initiated and responsible for the Niagara Regional Police Unmanned Vehicle Aerial Program
- Organizer and Chief Lecturer for the Niagara Regional Police Unmanned Aerial Vehicle Operators Course
- Lectured and instructed on various topics within the Service and community, in addition to lecturing annually on the NRPS Level 2 On Scene Collision Investigation course and the Scenes of Crime Course

June 2007 to September 2012

*Collision Reconstruction Unit, **Niagara Regional Police Service***

- Investigation of life-threatening and fatal injury collisions
- Investigation of fail to remain collisions resulting in serious injuries or greater
- Investigation of departmental collisions resulting in serious injuries or greater
- Investigation of industrial accidents involving vehicle collisions resulting in life-threatening or fatal injuries
- Parallel/joint investigations with the Ontario Special Investigation Unit, Ministry of Labour, Ministry of Transportation, Ontario Fire Marshall
- Forensic mapping and preparation of scaled diagrams for major crime scenes
- Location, identification and interpretation of collision scene evidence
- Inspection, identification and interpretation of vehicle damage profiles
- Imaging, analysis, and interpretation of vehicle event control units
- Crime scene and vehicle damage profiling photography
- Interviewing and interrogation of witnesses and involved parties
- Preparation of Criminal Code and Provincial Offence Act search warrants and crown briefs
- Preparation of independent collision reconstruction reports for civil proceedings
- Preparation and presentation of in-service training lectures

January 2003 to June 2007

*Central Traffic Enforcement/Special Enforcement Unit, **Niagara Regional Police Service***

- Breath Alcohol Technician
- Technical Collision Investigator
- Police Motorcycle Operator

January 2003 to June 2007

*#11 Division – St. Catharines, **Niagara Regional Police Service***

- Breath Alcohol Technician
- Divisional Radar & Alcotest Coordinator
- Scenes Of Crime Officer
- School Liaison Officer
- Police Motorcycle Operator

TRAFFIC INVESTIGATION RELATED TRAINING

- Pilot Certificate – Flight Reviewer, Transport Canada (April 2019)
- Pix 4d Forensic Mapping, Niagara Regional Police Service, Instructor: Mat Hewko (April 2019)
- Advanced RPAS Flight Trainer Course, AltoHelix, Oshawa, Instructor: Hyun Choi (February 2019)
- Pilot Certificate – Basic Operations, Transport Canada (January 2019)
- Pilot Certificate – Advanced Operations, Transport Canada (January 2019)
- Incident Mapping Suite Map360, Niagara Regional Police Service, Instructor: Matt Hewko (HPS) (November 2017)
- SOKKIA Magnet Field Software Operation Course, Niagara Regional Police Service/SOKKIA Canada, Instructor: Dave Janssen, Survey Systems Specialist Sokkia (July 2017)
 - Tripod & Total Station setup
 - Survey setup & Practice
 - Data Collection Techniques & Data Exports
- Tire Forensics & Accident Reconstruction Seminar, Toronto Police College, Guest speaker; T.J. Tennent, Engineering Manager for Bridgestone and Firestone Products (June 2017)
- Crash Data Retrieval (CDR) Analysis and Applications Course, Durham Regional Police Service/Crash Data Specialists, Instructor: T/Sgt. (Ret) Brad Muir (OPP) (March 2017)
- Forensic Identification Course (9 weeks), Canadian Police College, Ottawa, Lead Instructor: S/Sgt. Jean SEGUIN (October 2012)
Areas of study included but were not limited to:
 - Ridgeology
 - Fingerprint Identification
 - Fingerprint development techniques
 - Palm Print Identification
 - Photography

- Forensic and Alternative light sources
 - Digital Imaging
 - Introduction to Blood Pattern Analysis
 - Two-dimensional and three-dimensional Footwear Identification and Analysis
 - Tire Track Identification and Analysis
 - Physical Matching
 - Major Case Management
 - Plan Drawing
- SOKKIA Total Station Training, Niagara Regional Police Service/SOKKIA Canada, Instructor: Michael McMillan, Sale Manager (September 2012)
 - SOKKIA CX105 Theodolite & Allegro MX Data Collector
 - Practical Field Testing Included
- Crash Zone Computer Diagramming Course, Ontario Police College/Collision Analysis & Reconstruction Specialists, Instructor: S/Sgt. Gary McBratney (TPS) (December 2011)
- Advanced Collision Reconstruction with CDR Applications Course, Ontario Police College/CATAIR/Accident Analysis & Reconstruction Inc. Instructors: Greg Russell & T/Sgt. Brad Muir (OPP) (August 2011)
 - Practical Field Testing Included
- Advanced Motorcycle Crash Reconstruction Course, Peel Regional Police Service, Instructors: Wade Bartlett (MSC Engineering) (March 2011)
- Pedestrian/Bicycle Collision Reconstruction Course, Peel Regional Police Service, Instructors: Insp. Eric Brewer (RCMP) & Sgt. Al Strickland (RCMP) (May 2010)
 - Practical Field Testing Included
- Vericom Familiarization Course, Guelph Police Service/Vericom Computers Inc., Instructor: Richard Jobe, President (December 2009)
 - Practical Field Testing Included
- SOKKIA Total Station Training, Niagara Regional Police Service/SOKKIA Canada, Instructor: Patrick Hill, Manager (May 2009)
 - SOKKIA Set530R3 Theodolite & Allegro CX / MX Data Collector
 - Practical Field Testing Included
- Geographic Information Systems Training, Niagara Regional Police Service, Instructor: Liliana Selimovic (April 2009)
- Collision Reconstruction Course – Level 4 (4 weeks), Ontario Police College, Instructors: Rusty Haight (CSI), Sgt. John Johnson (TPS), T/Sgt. Mark Wright (OPP) Sgt. Brad Muir (OPP) & D/Cst. Nicola Bokalo (TPS) (April 2008)
 - Practical Field Testing Included
 - Tire Mark Identification and Analysis
 - Coefficients of Friction
 - Slide to Stop, Vault and Fall Formulas
 - Linear Momentum and Analysis and Formulas

- Damage Profile Analysis
- Occupant restraint safety systems (air bags, ABS and Event Data Recorders)
- Crash Data Retrieval System – Data Analyst Course, Toronto Police Service/Collision Safety Institute, Instructors: Cst. Brad Muir (OPP) (January 2008)
- Crash Data Retrieval System – Technician Course, Toronto Police Service/Collision Safety Institute, Instructors: Cst. Brad Muir (OPP) & Sgt. John Johnson (TPS) (January 2008)
 - Practical Field Testing Included
- Commercial Motor Vehicle Crash Investigation Course, Peel Regional Police/University of North Florida (Institute of Police Technology and Management) (September 2007)
 - Practical Field Testing Included
- Forensic Mapping Orientation, Niagara Regional Police Service, Instructors: D/Cst. Glenn Code, D/Cst. Mike Waters & D/Cst. John Sawicki (September 2007)
- SOKKIA Set 600 & 610 Theodolite & SDR33 Data Collector Training
 - Practical Field Testing Included
- Computerized Collision Scene Diagramming and Software Applications, Niagara Regional Police Service, Instructors: D/Cst. Glenn Code, D/Cst. Mike Waters & D/Cst. John Sawicki (September 2007)
- Police Lidar Instructor Certification Course, Ontario Provincial Police GHQ, Instructor: Sgt. John McNall (OPP) (March 2006)
 - Practical Field Testing Included
- Advanced Commercial Motor Vehicle Criminal Interdiction Course, Niagara Regional Police Service/RCMP (Operation Pipeline), Instructors: Sgt. Robert Ruiters (RCMP) & Cst. Paul Webb (October 2004)
 - Practical Field Testing Included
- Police Radar Detector-Detector Certification Course, Niagara Regional Police Service/Stealth Microsystems Pty Ltd (Australia), Instructor: Cst. Mike Moore (November 2003)
- Police Motorcycle Familiarization Course, Niagara Regional Police Service, Instructors: D/Cst. Cliff Priest & D/Cst. Rom Diegidio (May 2003)
- Advanced Collision Analysis Course – Level 3 (3 weeks), Canadian Police College/Ottawa, Instructors: Don Shannon, Cpl Vanderline, Cst Muir (May 2003)
 - Practical Field Testing Included
 - Tire Mark Identification and Analysis
 - Coefficients of Friction Slide to Stop, Vault and Fall Formulas
 - Theory and Field Testing of Above Formulas
 - Post-Collision Vehicle Xaminations

- Driver Perception, Reaction Times and Human Factors
- Police Radar Instructor Certification Course, Niagara Regional Police Service – Central Traffic Unit, Instructor: Cst. Mike Moore (March 2003)
 - Practical Field Testing Included
- Motor Vehicle Criminal Interdiction Course, Niagara Regional Police Service/RCMP (Operation Pipeline), Instructor: Cst. Paul Webb (February 2003)
- Intoxilyzer 5000C Certification Course, Niagara Regional Police Service/Centre of Forensic Sciences, Instructor: Dr. Bruce Walker (CFS) & Cst. Mike Plato (OPP) (October 2002)
 - Practical Field Testing Included
- On Scene Collision Investigator Course – Level 2, Niagara Regional Police Service/Collision Reconstruction Unit, Instructors: D/Cst. Glenn Code, D/Cst. Cliff Priest & D/Cst. Rom Diegidio (May 2002)
 - Tire Mark Identification and Analysis
 - Introduction to Slide to Stop Formulas
 - Theory and Field Practical Field Testing of Slide to Stop
 - Post-Collision Vehicle Examinations
 - Collision Scene Factors (Weather, Road, Vehicle, Driver and Pedestrians)
- Police Lidar Operator Certification Course, Niagara Regional Police Service – Central Traffic Unit, Instructor: Cst. Jim Williams (November 2000)
 - Practical Field Testing Included
- Basic Police Cycling Tactics Course, Niagara Regional Police Service/Law Enforcement Bicycling Association, Instructor: Cst. Gord Duncan, NRPS (July 2000)
 - Practical Field Testing Included
- Alcotest Operator Certification Course, Niagara Regional Police Service – Central Traffic Unit, Instructor: D/Cst. Cliff Priest, NRPS (November 1999)
- Police Radar Operator Certification Course, Niagara Regional Police Service – Central Traffic Unit, Instructor: D/Cst. Cliff Priest & Cst. Jim Williams (November 1999)
 - Practical Field Testing Included

INVESTIGATIVE AND SUPERVISORY RELATED TRAINING

- Supervisor Course, Niagara Regional Police Service – Centre for Police & Community Safety Studies, Facilitator: Constable Sandy Mackay (February 2020)
- Thermal Imagery Certification Course, Fire and Emergency Services Training Institute, Mississauga, Facilitator: Andy Olsen (November 2019)
- PEACE Model Investigative Interviewing Course, Niagara Regional Police Service – Centre for Police & Community Safety Studies, Instructor: A/D/Sgt. Lisa Isherwood (November 2016)

- SOCO Trainer Course, Ontario Police College/Forensic Identification Training, Instructor: Sgt. Alan Benton (January 2016)
- P.L.A.S.S Data Course, Canadian Police College/Forensic Identification Training, Instructor: Sgt. Mike VanderSchaff (October 2015)
- UAV Operators Course, Canadian Police College/CBRNE, Instructor: Sgt. Trevor Beach (July 2015)
- CBRNE Technician Level 3 Course, Fort Erie Fire Department, Instructor: Ed Melanson (February 2015)
- CBRNE Operations Plus Level 2 Course, Fort Erie Fire Department, Instructor: Ed Melanson (January 2015)
- CBRNE Operations Course Level 1 Course, Fort Erie Fire Department, Instructor: Ed Melanson (November 2014)
- Post Disaster Course, Canadian Police College/Forensic Identification Unit, Instructor: Sgt. Trevor Beach (September 2014)
- Chemical Treatment Course, Ontario Police College/Forensic Identification Unit, Instructor: Sgt Brian Dalrymple (June 2014)
- Math and Physics Training Course, Ontario Police College/Forensic Identification Unit, Instructor: Sgt. Bryan Allen (May 2014)
- DNA Sample Collection and Warrant Course, Ontario Police College/Forensic Identification Unit, Instructor: Sgt. Alan Benton (April 2013)
- Basic Bloodstain Pattern Recognition Course, Ontario Police College/Forensic Identification Unit, Instructor: Sgt. Bryan Allen (April 2013)
- Basic High Angle River Team Course, Niagara Parks Police: Instructor: Cst. Sean Black (May 2013)
- Death Investigation Course, Ontario Police College/Forensic Identification Unit, Instructor: Sgt. Alan Benton (June 2013)
- Cognitive Veracity Assessment & Statement Analysis Course, Niagara Regional Police Service, Instructor: Neil Barker (November 2009)
- Major Case Management Course, Niagara Regional Police Service/Ontario Police Collage, Instructor: S/Sgt. Peter Abi-Rashed, HRPS (July 2009)
- REID Advanced Interviewing and Interrogation Course, Ontario Association of Police Educators/John E. Reid & Associates, Instructor: James Bobal (June 2009)
- Search Warrant Course, Niagara Regional Police Service/Ontario Police Collage, Instructor: Mike Lenehan (May 2009)

- Major Case Management, Niagara Regional Police Service/Ontario Police Collage (July 2008)
- Ontario Police College – Acting Sergeant Qualification, Niagara Regional Police Service (March 2007)
- General Investigation Techniques Course, Niagara Regional Police Service/Ontario Police Collage, Instructor: D/Cst. Josie Hollingshead, NPRS Course Coordinator (October 2006)
- Effective Presentations Course, Niagara Regional Police Service – Centre for Police & Community Safety Studies, Instructors: Insp. Skatfeld, & A/S/Sgt. Munroe, NRPS (July 2003)
- Scenes of Crime Officer Course, Niagara Regional Police Service – Forensic Services Unit, Instructors: D/Cst. Richard Cizek, & D/Cst. Todd McKinnon, NRPS (November 2002)
 - Practical Field Testing Included
- Basic Constable Recruit Training, Ontario Police College (July – November 1999)

PROFESSIONAL DEVELOPMENT SEMINARS AND CONFERENCES

- Ontario Homicide Investigators Association Educational Conference, Niagara Falls/Niagara Regional Police Service (May 2016)
- IAI International Educational Workshop, Sacramento California Conference Centre (August 2015) Topics:
 - Computer Forensic Examination using Linux
 - Examination and Comparisons of Tires, Tire Treads and Tire Tracks
 - Discovery, Preservation and Collection of Footwear and Tire Track Evidence
 - Using Panoramic and HDR Photography to Enhance Scene Capture
 - Developing Latent Prints on Firearms, Cartridges
 - iPhone, iPad and Smartphone Apps for Crime Scene Investigations
- UAV (Unmanned Aerial Vehicle) Educational Conference, University of Regina/Unmanned Systems Canada (July 2015)
 - Developed an understanding of the current state of public safety and emergency management UAS use and capabilities in Canada;
 - Developed a first draft of a Canadian Public Safety & Emergency Management UAS Strategy
- Sudden Death Investigations, Niagara Regional Police Service/Office of the Chief Coroner, Lecturer: Dr. Jack Stanborough, Regional Supervising Coroner (February 2011)
- Interrogation Seminar, Niagara Regional Police Service, Instructor: Neil Barker (November 2009)
- Death Notification Training, Niagara Regional Police Service/MADD Canada, Instructor: Lloyd Grahame (April 2009)

- Surviving Cross Examination, Niagara Regional Police Service, Lecturer: Bob Montrose (September 2002)

LECTORAL AND PRESENTATION EXPERIENCE

- Advanced Public Safety RPAS Course – Course Instructor (2019 – Present)
 - Ontario Police College
 - Responsible for the advanced training of 12 Public Safety officials Pilots
- Niagara Regional Police Unmanned Aerial Vehicle Operators Course – Chief Instructor
 - Organizer and Chief Lecturer
 - Practical Field Testing
- On Scene Collision Investigator Course – Level 2 – Guest Lecture, Niagara Regional Police Service – Emergency Support Services (2007 – Present)
 - Pedestrian Collision Investigations
 - Motorcycle Collisions Investigations
 - Sequence of Events
 - Forensic Services Unit
 - Practical Field Testing Included
- Radar Operator Certification Courses – Instructor (March 2003 – June 2007)
 - Certification Courses, Niagara Regional Police Service
 - Requalification Courses, Niagara Regional Police Service
 - Practical Field Testing Included
- ALCOTEST Operator Certification Courses – Instructor (January 2005 – June 2007)
 - Certification Courses, Niagara Regional Police Service
 - Requalification Courses, Niagara Regional Police Service
- Lidar Operator Certification Courses – Instructor (March 2006 – June 2007)
 - Certification Courses, Niagara Regional Police Service
 - Practical Field Testing Included

COURT DESIGNATED EXPERT TESTIMONY

- Ontario Court of Justice, Welland, Ontario, Her Worship Justice of the Peace Eileen Walker
 - Regina Vs. Wayne Denis MARR
 - S.130 HTA – Careless Driving
 - Area of Collision Reconstruction
